Summary of Student Feedback Analysis on Infrastructure (2019-20)

SJCET has established a feedback mechanism where any question rated as "poor" or "satisfactory" by more than 40% of students triggers a response. This institution places a high priority on enhancing the quality of services provided to its students and takes feedback seriously. As part of the recent analysis of student feedback, it has been noted that certain questions received ratings below the 40% threshold. This finding has prompted SJCET to initiate actions aimed at improving hostel facilities and Wi-Fi services. These proactive steps demonstrate SJCET's unwavering dedication to ensuring students have access to top-notch amenities and a conducive learning environment.

SJCET's commitment to improving student services is clearly evident through its proactive response to feedback, even when ratings slightly fall below the 40% threshold. The institution's decision to address hostel and Wi-Fi facility issues underscores its commitment to student satisfaction.

ACTION TAKEN REPORT BASED ON THE FEEDBACK FROM STUDENTS ON INFRASTRUCTURAL FACILITY FOR THE ACADEMIC YEAR 2019-20

This institution is affiliated to APJ Abdul Kalam Technological University. For continuous improvement in the infrastructure facilities provided to the students, the institution obtains feedback from students on infrastructural facilities. We have taken proactive steps to enhance our infrastructural facilities based on valuable feedback from our students following the reopening of our college.
