Hi,

We're all getting really excited for the upcoming XGS external EAP! We need your teams help to make this launch a success for everyone. It's vital to our business and your sales opportunities. XGS External EAP for shortlisted Customers and Partners would begin in the end-Jan/ start of Feb.

For those of you who are new to external EAP and insider program:

1. Insider Program XGS hardware is free of charge for shortlisted customers and partners. We expect they are Sophos friendly and are willing to work with us.
 2. We're going to provide licenses with the units that will outlast the EAP period.
 3. XGS hardware is beta and we won't officially support them after the EAP period. However, they wish to continue using them for after the EAP. They may do so at their own discretion understanding that Sophos support and RMA won't be available for these units.
1. We will need assistance from the SE team to help make this a success. For the Insider's, we'll want the SE to meet (Zoom is fine) with them ~weekly to be sure we're getting feedback, things are progressing, and identify early issues.
 2. We'll have PGM, PM, engineering, and QA all ready to support SEs and the partners/customers.

Please let us know if you have any questions on XGS external EAP insider program.

Regards,

Santhosh Varkey | Manager – Sales Engineering

1. Sophos will install XGS b/w Area of cost.
 2. Sophos must train Mr. Rony, System Admin to use the new feature.
 3. Sophos should not charge extra money after the validity expires.
