

TECHPULSE

Template for Submission

ULCCS Ltd.

1. Problem Statement

- Theme selected.
- Define the problem or gap your idea aims to address.
- Explain the real-world significance and who it impacts.
- Provide supporting data, if available, to highlight the importance of the issue.

2. Proposed Solution

- Introduce your idea briefly.
- Mention the key features of your solution.
- The brief should emphasize the innovation in the proposed solution.
- Clearly state the problem your idea addresses and how your approach is unique or impactful.

3. Target Audience

- Specify who will benefit from the solution.
- Include potential users, organizations, or demographics.

4. Solution Architecture

- Technology Stack
- High-Level Workflow

5. Features

Highlight the unique and essential features of your solution.

6. Business Value

Explain why your solution matters and the value it delivers.

7. Future Enhancements

Discuss how the solution can evolve post-hackathon.

8. Team Details

- College Name
- Team Name and Team Lead
- Team members Details

9. Conclusion

Summarize the potential impact of your solution and why it deserves to win the hackathon.
